EXPERIENCE

Zenput, San Francisco, CA — *Sr. Software Engineer II*

DECEMBER 2013 - PRESENT

I joined Zenput as a Junior SWE and the second non-founding employee. Since then, I helped build Zenput's web and mobile products in Django, BackboneJS Marionette, React, and Cordova.

Freelance Web Developer, Burlington, VT

2011 - 2013

As a part-time freelance developer, I built a website for a small restaurant in Orange County, CA. Around this time, I also worked on a local search engine called Access Burlington in Burlington, VT. Both of these were built on Wordpress using custom plugins written in PHP.

Bankruptcy Management Solutions, Irvine, CA — *Web Product Development Intern*

JULY 2011 - AUGUST 2011

I helped rewrite a legacy Windows application as a webapp using jQuery and Java Server Faces.

EDUCATION

Champlain College, Burlington, VT — *B.S., Computer Information Technology & Web Development*

SEPTEMBER 2009 - MAY 2013

Graduating *magna cum laude*, I earned my Bachelor of Science degree in Computer Information Technology at Champlain College with a minor in Web Development.

PROJECTS

Rescroller — *Chrome Extension*

I built a Chrome extension that allows users to customize the look and feel of scrollbars on web pages.

Champlain College Shuttle Tracker — *Android App*

As a student at Champlain College, I ported a campus shuttle tracker webapp to Android as a personal side project.

SKILLS

Javascript (Node, Backbone, React)

Python (Django)

Apache Cordova

Java (Android)

MySQL

MongoDB

Elasticsearch

Amazon Web Services

CircleCI

AWARDS

Champlain College CIT Outstanding Student awarded in 2011, 2012, and 2013
